Units 9–16

[Track 12]

Test A

A Listen to Connor and Keiko talking. Check the correct answers.

CONNOR: Hi, Keiko. Have you been doing anything interesting lately?

KEIKO: Hmm. I've been working a lot, but that's not very interesting. Oh, I know. I saw *The Format Code* last weekend. That was amazing.

CONNOR: I didn't know you liked thriller movies. What's it about?

KEIKO: It's about some scientists that travel back in time to save the world from a huge disaster. One of the scientists falls in love with a disaster victim –

CONNOR: Oh, that's the movie that stars Chase Taylor, isn't it? And the director is the same guy who directed his last movie.

KEIKO: Yes, I think so. It's really more of a love story than a thriller. That's probably why I liked it so much.

B Listen to Austin and Teresa talking. Check the correct answers.

AUSTIN: Teresa, I've got a problem. Yesterday a friend asked me to give him one of my science projects. He wanted to copy it, put his name on it, and hand it in in another class. That way the teacher would think he put it together himself.

TERESA: What did you tell him?

AUSTIN: I was so surprised that I didn't know what to do. I said I'd think about it. What would you do if one of your friends wanted to use one of your projects like that?

TERESA: I'd tell him to forget about it.

AUSTIN: But you know, this is a really good friend. He has helped me a lot of times before.

TERESA: Well, I still wouldn't do it. If the teacher found out you gave him the project, it would be bad for you, too.

AUSTIN: I guess you're right.
