Animated movies aren't just for kids anymore. Some of the most popular movies of 2010 were *Toy Story 3*, *How to Train Your Dragon*, and *Despicable Me*. In fact, Pixar's *Toy Story 3* became the highest-grossing animated movie ever made. Animated movies are fast becoming an important force in the movie industry.

Making animated movies can take much longer than making a traditional movie. This is partly because approximately seven hours are needed to render one single frame of an animated movie. In fact, some frames can take up to 39 hours to render. *Toy*

animated characters is meant to tempt adults into going to animated movies with their children. Studio executives know that the bigger the name, the more likely adults will tag along with their kids.

To further emphasize the impact animated movies have had on the movie industry, the Academy of Motion Picture Arts and Sciences began giving out Academy Awards for Best Animated Feature in 2001. The prestige of winning such an important award results in more ticket sales for movie theaters and more profits for animated moviemakers.

*Story 3* took 1,084 days, or nearly three years, to make.

Most animated movies have big-name stars attached to them to voice the characters. Tom Hanks voiced the character of Woody in the *Toy Story* movies, while Angelina Jolie was cast as the voice of Tigress in *Kung Fu Panda*. Using famous actors to voice
