

Unit 4 Written quiz audio script

(Track 5)

1. *Jonathan* We're always having these big family dinners with my grandparents – probably twice a month or so. I mean, the dinners are nice, and I like my grandparents a lot. But I'm pretty busy these days, and sometimes I don't think my family lets me see my friends enough.
2. *Pam* My kids are great. They're really good students, but when they aren't studying, it seems like they're just sitting around the house – watching TV or playing computer games. I can't get them to go *out* and play. I mean, why don't they take a ride on their bikes or go for a walk? When I was a kid, we used to be a lot more active.
3. *Vera* My husband has the most annoying habit. When I start to talk about something – like when we're with friends – he never lets me finish. He always wants to tell the story himself or give his own opinion. Sometimes he even interrupts me in the middle of a sentence.
4. *Tom* My wife is always buying me clothes. Sometimes they're really nice – like the beautiful tie she gave me a month ago – but not always. She gave me a couple of really ugly shirts once. She should at least ask me if I like something before she buys it.
