Thanks and acknowledgements

Many people have contributed to making this book what it is. Above all, we would like to thank our editors at Cambridge University Press, especially Emily Hird, Tracy Griffin and Tom Allen, whose expert guidance steered us and our manuscript through the whole process from start to finish. They set the deadlines that motivated us to get the book done, provided feedback on drafts and chased us when we lagged behind. We are also grateful to the students and staff at various institutions who assisted in reviewing and piloting the material in different parts of the world: Hayden Berry, Rachel Connabeer, Garan Holcombe, Alex Latimer, Glennis Pye and Wayne Rimmer. Equally, we thank the many other teachers and users of previous editions of the book who have, over the last 15 years, given us invaluable feedback and constructive criticism which we have tried to take into account in this third edition. Alison Silver, as usual, proved to be the most expert and professional of editors when the typescript passed into her hands and made many useful comments and suggestions that have improved the book. We are also grateful to the corpus managers at CUP for providing us with the ever-growing Cambridge International Corpus, without which our vocabulary research would have been considerably impoverished. Andy George and the production team at CUP led the book with utmost efficiency through its final stages, and we thank them too. What shortcomings that may remain must be laid entirely at our door.

This product is informed by the English Vocabulary Profile, built as part of English Profile, a collaborative programme designed to enhance the learning, teaching and assessment of English worldwide. Its main funding partners are Cambridge University Press and Cambridge ESOL and its aim is to create a 'profile' for English linked to the Common European Framework of Reference for Languages (CEF). English Profile outcomes, such as the English Vocabulary Profile, will provide detailed information about the language that learners can be expected to demonstrate at each CEF level, offering a clear benchmark for learners' proficiency. Introduction

To the student

This book has been written to help you learn new vocabulary. You already know a large number of English words, but to express yourself more fully and in a more sophisticated way at the upper-intermediate level, you will ideally need about 4,000 words, so increasing your vocabulary is very important for your general progress in English. In this book, there are over 2,500 new words and phrases for you to learn. You will find them on the left-hand page of each unit. Every new word or phrase is used in a sentence, or in a conversation, or is in a table, or has a picture with it, or has some explanation of what it means. On the right-hand page there are exercises and other activities to help you practise using the words and to help you to remember them. The book has been written so that you can use it yourself, without a teacher. You can do the units in any order you like, but we believe it is a good idea if you do Units 1 to 4 first, as they will help you to work with the rest of the book in the best possible way.

The Answer key at the end of the book is for you to check your answers to the exercises after you do them. The Answer key sometimes has more than one answer. This is because often there is not just one correct way of saying something. Where you are asked to talk about yourself, in the Over to you exercises, we do not generally provide answers, since this is your opportunity to work completely independently and in a very personal way, so everyone's answers will be very different.

The Index at the end of the book has all the important words and phrases from the left-hand pages. The Index also tells you how to pronounce words. There is a table of phonemic symbols to help you understand the pronunciation on page 258.

You should also have a dictionary with you when you use the book. You can use a paper dictionary or an electronic one, or you can go to Cambridge Dictionaries Online at http://dictionary.cambridge.org/. Access to a dictionary is useful because sometimes you may want to check the meaning of something, or find a word in your own language to help you remember the English word. Sometimes, you will also need a dictionary for the exercises; we tell you when this is so.

To learn a lot of vocabulary, you have to do two things:

- 1 Study each unit of the book carefully and do all the exercises. Check your answers in the Answer key. Repeat the units after a month, and then again after three months, and see how much you have learnt and how much you have forgotten. Repeating work is very important. One way of doing this is to use the accompanying book *Test Your English Vocabulary in Use Upper-intermediate*. This has a test for each unit, practising all the vocabulary of that unit.
- 2 Develop ways of your own to study and learn new words and phrases which are not in this book. For example, every time you see or hear an interesting phrase, write it in a notebook, and write who said it or wrote it, and in what situation, as well as what it means. Making notes of the situations words are used in will help you to remember them and to use them at the right moment.

We hope you like this book. When you have finished it, you can go to the next book in the series, English Vocabulary in Use Advanced, and along with that, to the more specialised titles: English Idioms in Use, English Phrasal Verbs in Use and English Collocations in Use, all of which are available at upper-intermediate and advanced levels. There are also separate books of tests available, where you can test yourself on what you have learnt from the books in the series.

To the teacher

This book can be used in class or as a self-study book. It is intended to take learners from a lower-intermediate level of vocabulary to an upper-intermediate level. The vocabulary has been chosen for its usefulness in everyday situations, and we consulted the Cambridge International Corpus, a written and spoken corpus of present-day English, including a huge learner corpus, to help us decide on the words and phrases to be included for students at B2 (CEFR) level. The new vocabulary (on average 25–30 items per unit) is presented with illustrations and explanations on the left-hand page, and there are exercises and activities on the right-hand page. There is an Answer key and an Index with pronunciation for all the target vocabulary. The Answer key at the end of the book is for students to check their answers to the exercises after they do them.

The book focuses not just on single words, but on useful phrases and collocations, and the vocabulary is illustrated in natural contexts. The book is organised around everyday topics, but also has units devoted to basic concepts such as time, number and movement, linking words, word formation, multi-word expressions, pronunciation and varieties and style, as well as a set of initial units concerned with ways of learning vocabulary. Typical errors are indicated where appropriate, based on information from the Cambridge Learner Corpus, and the most typical meanings and uses are focused on for each item. The units in the book can be used in any order you like, but we would advise doing the initial units (Units 1 to 4) first, as these lay the foundations for the rest of the book.

The right-hand pages offer a variety of different types of activities, with some traditional ones such as gap-filling, but also more open-ended ones and personalised activities which enable learners to talk about their own lives. Although the activities and exercises are designed for self-study, they can easily be adapted for pairwork, groupwork or whole-class activities in the usual way. The Answer key sometimes gives alternative answers to the exercises. This is because often there is not just one correct way of saying something. Where students are asked to talk about themselves, in the Over to you exercises, we do not generally provide answers, since these exercises give learners the opportunity to work completely independently and in a very personal way, so everyone's answers will be very different.

When the learners have worked through a group of units, it is a good idea to repeat some of the work (for example, the exercises) and to expand on the meaning and use of key words and phrases by extra discussion in class, and find other examples of the key items in other texts and situations. This can be done at intervals of one to three months after first working on a unit. This is important, since it is usually the case that learners need five to seven exposures to a word or phrase before they can really begin to know it, and no single book can do enough to ensure that words are always learnt first time. Test Your English Vocabulary in Use Upper-intermediate and the CD-ROM will help teachers to gain extra practice with the vocabulary presented in this book.

When your students have finished all the units in this book, they will be ready to move on to the higher level books in this series: English Vocabulary in Use Advanced, and the upper-intermediate and advanced levels of English Idioms in Use, English Phrasal Verbs in Use and English Collocations in Use, by the same authors as this book. They can also test themselves on the knowledge they have gained from this and the other books in the series by using the separate books of tests that accompany the series.

How to use the *English Vocabulary in Use Upper-intermediate* CD-ROM to learn vocabulary

Your copy of English Vocabulary in Use Upper-intermediate comes with a CD-ROM. You can use the CD-ROM to improve your English vocabulary. These two pages answer some common questions about the CD-ROM.

What is on the CD-ROM?

The CD-ROM contains

- two practice activities for each unit of the book (200 in total)
- · a test maker
- · a record and play-back function
- · a dictionary function
- · a reference section.

When should I use the CD-ROM?

You can use the CD-ROM before or after you do a unit in the book. This section will give you some suggestions.

Using the CD-ROM before you look at a unit in the book

The CD-ROM can help you discover how much vocabulary you already know about a topic. Try this:

- Choose a topic from the Exercises menu, for example Time in the Basic concepts section.
- Complete the two exercises. After each exercise, click *Check your answers* to see how many questions you got right. Make a note of any words you found difficult.
- Now go to the relevant unit of the book. Study the notes on the left-hand page. Try
 to find the words you didn't know from the CD-ROM. Complete the exercises on
 the right-hand page.
- Finally, return to the CD-ROM. Look at the *My progress* section. Can you improve your score this time? Complete the two exercises again for the same unit.

Using the CD-ROM after you look at a unit in the book

The CD-ROM can help you to remember words you learnt from the book. This kind of revision is very important if you want to remember vocabulary. Try this:

- When you complete a unit from the book, write the date at the top of the page.
- One week later, go to the CD-ROM and do the two exercises from that unit. How
 much vocabulary can you remember? Make a note of any words you found difficult
 or couldn't remember.
- Go back to the unit in the book and look for the words you didn't know. Study the words again.
- Finally, return to the CD-ROM and complete the two exercises again. Did you remember those difficult words?

The CD-ROM can also help you test yourself. You can even personalise the tests to cover the topics that you want to practise. Try this:

- When you finish a group of units in the book (for example, the nine units in the *Feelings and actions* section), go to the CD-ROM and make a test on the vocabulary from those units. The CD-ROM will create five test questions from each of those units. For an extra challenge, use the time limit function. If your score is low, look at the units again. Then create a new test and try to improve your score.
- Alternatively, create a test when you have completed the whole book. Choose units at random or concentrate on units that you found difficult.

Can the CD-ROM help me with my pronunciation?

Yes, it can. The CD-ROM has a record and play-back function which you can use to practise your pronunciation. Try this:

- When you have completed an exercise on the CD-ROM, click the green arrow to hear a model pronunciation of the words or sentences.
- Then click the red *Record your voice* button at the bottom of the screen. Practise saying the word or sentence.
- Now click the green *Play your voice* arrow at the bottom of the screen. Does your pronunciation sound correct? Listen to the model pronunciation again to check.
- Record your voice again if necessary.

What's in the reference section?

Here you will find a really useful wordlist, with all the key words from the book. You can hear the American English and British English pronunciation of every word and phrase. You can also make notes on this page. All the left-hand book pages are available to help you with the exercises.

What else can the CD-ROM do?

The CD-ROM also has a dictionary function. You can use it to look up any words that you don't know. You will need an internet connection for this. Also, you can click on any word in the CD-ROM and it will look up the word in the online dictionary.

You can also check your progress at any time using the *Progress* section. This will help you to see which exercises you have completed. It can also show you areas where you need more practice. In those cases, study the unit again.

Remember you can print out tests, exercises and the answers.

We hope you enjoy using the English Vocabulary in Use Upper-intermediate CD-ROM.

Learning vocabulary

A What do you need to learn?

Did you know that there are over half a million words in English but that the average native speaker only uses about 5,000 in everyday speech? You already know many of those 5,000 words. This book will help you to learn many of those that you do not yet know and it will help you to use them appropriately and accurately.

B What does knowing a new word mean?

It is not enough just to know the meaning of a word. You also need to know:

- which words it is usually used with;
- its grammatical characteristics;
- how it is pronounced;
- whether it is formal, informal or neutral.

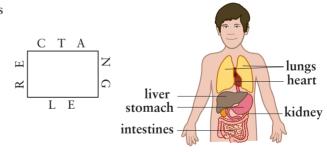

So when you learn a word you should make sure that you:

- Learn new words in phrases not in isolation.
- Notice how words commonly go together. These are called **collocations** and include: adjectives + nouns, e.g. *rich vocabulary, classical music, common sense*; verbs + nouns, e.g. *to express an opinion, to take sides*; nouns in phrases, e.g. *in touch with, a train set, a sense of humour*; words + prepositions, e.g. *at a loss for words, in particular*.
- Notice special grammatical characteristics of new words. For example, note irregular verbs, e.g. *undertake*, *undertook*, *undertaken*; uncountable nouns, e.g. *luggage*; or nouns that are only used in the plural, e.g. *scissors*.
- Notice any special pronunciation problems with new words.
- Check if the word is particularly formal or informal in character, in other words if it has a particular register.

C How can you help yourself to memorise words?

Research suggests that some students find it easier to learn words if they (a) learn them in groups and (b) make use of pictures.

You can group words in any way you like – topic, grammatical feature, word root, and so on. The unit titles in this book might give you some ideas.

Pictures can help you to remember the meaning. For example:

D How can you help yourself learn more words?

This book will help you to learn vocabulary in a systematic way. However, you can also help yourself to learn more words and expressions by reading and listening to as much English as possible. Here are some ideas about things you can read or listen to:

1.1	Here are some asp two examples of v				ning new vocab	ulary. Give

Look at the suggestions in D. Can you think of any other ideas to add to the list? Rank each one from 0 to 4 to describe how important this way of learning vocabulary is for you. Then rank the list again considering how important this way of learning vocabulary could become for you in the future (0 = not important at all and 4 = very important).

Study 2

Organising a vocabulary notebook

A Organising words by meaning

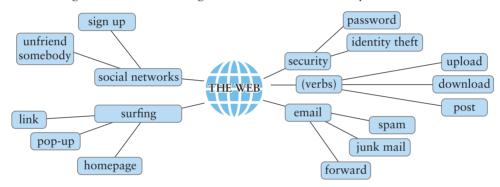

Try dividing your notebook into different broad sections, with sections for words for feelings, words to describe places, words for movement, words for thinking, etc.

Charts and tables of various kinds can help you organise your vocabulary. Here is an example for words connected with music:

Instruments	Types of music	Verbs	Related words
guitar	classical (not classic)	play	practice (n) practise (vb)
cello	folk (not folkloric)	strum (a guitar)	track
piano	world	perform	release (an album)

B Building networks of meaning

A network diagram is useful. It can grow in whatever direction you want it to.

C Collocations and fixed phrases

It is important to know how a word combines with other words (its collocations). Always record the common collocations of a word as you meet them, e.g. win (prize, award, medal) earn (money, a high salary) gain (time, an advantage)

Where a word is often used in a fixed phrase, always record the whole phrase, e.g. in a hurry out of touch to and fro now and again

D Synonyms and antonyms

When you find a synonym (same meaning) or an antonym (opposite meaning) of a word you already have in your book, enter it next to that word with a few notes, e.g. $urban \neq rural$ stop = cease (cease is very formal)

E Organising by word class

Make a note of the word class of a new word (whether it is a noun, verb, adjective, etc.). Record words from the same word family together, e.g. produce (verb or noun) product (noun) productive (adjective)

F Stress

Record where the stress falls on a multi-syllable word, especially if the stress changes between word classes, e.g. produce (verb) produce (noun) productive (adjective)

Language help

Note any typical errors you make or which your teacher has mentioned.

2.1 Organise the words into the topics below. Use a dictionary if necessary.

tabloid hang out with sb exhaustion podcast stress overwork upload a video burnt out blogosphere journalist snowed under with work casual acquaintance blog be close to sb count on sb be under pressure

topic	words
working too much / too hard	stress
friendship	
media	

2.2 Here is a list of words a learner of English made in a vocabulary notebook in class. Organise them in a more efficient way, using the chart.

rush oversleep latecomer alarm clock set a clock deep sleep fast asleep out of breath heavy sleeper in a hurry breathless nightmare dash yawn exhausted

nouns	verbs	adjectives	collocations	fixed phrases
latecomer				

2.3 Change the sentences using a synonym (S) or antonym (A) of the words in bold using words from the box.

glad spicy deprive sb of sth shot dissatisfied chilly

- 1 I was pleased glad to hear you'd passed your exam. (S)
- 2 I got some excellent photos of the Grand Canyon on my trip to the US. (S)
- 3 She was happy with the conditions they offered her in the new job. (A)
- 4 The prisoners were supplied with food and medical care. (A)
- 5 I don't like mildcurries. (A)
- 6 It's a cold day today. (S)

2.4 Fill in the missing word forms. Then mark the word stress for each item.

noun	verb	adjective	person
perfection	per <u>fect</u>	perfect	perfectionist
information	inform		
politics			
economics		*	

^{*} Give two adjectives.

2.5 Over to you

Do you have any personal way of organising your vocabulary that is not mentioned in this unit (e.g. use of colours, drawings)? If so, why is it useful? If possible, compare your ideas with other students.

Using your dictionary

A What a good dictionary tells you: the basics

A good learners' dictionary (in book form or online) can tell you about:

• Pronunciation: this may mean learning some symbols which are different from the letters of the English alphabet.

θ	th in th ick	ð	th in then	tſ	ch in church
ſ	sh in she	ф	j in j am	3	s in pleasure
ŋ	ng in ri ng	æ	a in b a d	D	o in top
)IC	o in f or m	U	u in p u t	Э	a in a bout
Λ	u in u p	31	in b ir d		

- Word stress: often shown by a mark before the syllable to be stressed or by underlining or bold type, e.g. /əd'ventʃə/, /westən/, complicated.
- Usage: how a word is used and any special grammatical pattern that goes with it, e.g. suggest + clause (not an infinitive) *I suggest* you ring her *right away*. (NOT I suggest you to ring her right away.)

Additional information

- Synonyms (words of similar meaning) and antonyms (opposites), e.g. mislay and misplace (synonyms), friend ≠ enemy/foe (antonyms).

Guessing and explaining meaning

Α

Working out meaning from context

There are a number of clues you can use to help you understand the meaning of an unfamiliar word.

The context in which the word is used

- Visual clues: for example, a picture in a book or film footage in a TV news broadcast.
- Your own background knowledge about a situation: for example, if you already know that there has just been an earthquake in a big city, then you will find it easy to understand the word 'earthquake' when you hear a news broadcast about it.
- The words around the unfamiliar word: for example, 'Suzanna picked one tall yellow gladiolus to put in her new vase.' Even if you have never seen or heard the word 'gladiolus', it is clear from the context that it is a type of flower.
- Grammatical clues: for example, it is clear that 'superstitious' must be an adjective in the sentence 'Alejandro is very superstitious and would never walk under a ladder', or that 'gingerly' is an adverb in 'Clare tiptoed gingerly down the stairs, trying to avoid all the broken glass.'

Similarity to other words you already know in English

A large number of words in English are made up of combinations of other words. You may never have seen the word 'headscarf', for example, but it is easy to work out that it is a scarf worn on the head. Units 73–75 will help you improve your skills in understanding how English uses everyday words to build up new concepts.

Structure

A prefix or suffix may give you a clue: for example, Units 69–71 focus on different aspects of word formation in English and should help you use those clues to make sense of unfamiliar words.

Similarity to a word you know in your own (or some other) language

If your first language is of Latin or of Germanic origin, you will come across many words in English that resemble words in your own language. However, English has taken many words from many other languages too. So make use of any other languages you know. But remember that some words are false friends – they sound as if they mean the same but in fact they have a different meaning. For example, *gift* in English means *a present* but in German *Gift* means *poison*.

В

Explaining unknown words

The following expressions are useful when you are trying to explain what a word or expression means:

It's probably something (a bit) like (a chair) ...

It's got to be something you use for (painting pictures / cleaning the kitchen floor) ...

It's a kind of (bird / musical instrument / building) ...

I think it must / could mean ...

4.1 Look at the following text. Before you read it, see if you know what the underlined words mean.

A tortoise is a <u>shelled reptile famed</u> for its slowness and <u>longevity</u>. The Giant Tortoise of the Galapagos may <u>attain</u> over 1.5 metres in length and have a <u>lifespan</u> of more than 150 years. Smaller tortoises from Southern Europe and North Africa make popular pets. They need to be <u>tended</u> carefully in cool climates and must have a warm place in which they can hibernate.

Which of the underlined words can you guess from the context or using any other clues? First make a guess and then check your guesses in the Answer key.

- 4.2 Use the context to work out what the underlined words mean. Explain them using one or other of the expressions in B on the opposite page.
 - 1 Above the trees at the edge of the meadow, a <u>buzzard</u> hangs for a moment on the wind before soaring towards the hills. I think a buzzard must be a kind of hird.
 - 2 According to some sources, the water <u>vole</u> is one of the most rapidly declining creatures in Britain and a new survey is now being carried out to determine how serious the threat of extinction really is.

 - 5 We often used to walk up to the cliff top where we would <u>clamber</u> over the farmer's gate and go right to the edge where the view was better.
 - 6 Some people get really ratty when they haven't had enough sleep.
- 4.3 Use your knowledge of other basic English words to help you work out the meanings of the underlined words and expressions. Rewrite them using simpler words or explanations for the underlined words and phrases.

5 Countries, nationalities and languages

A Using 'the'

Most names of countries are used without 'the', but some countries and other names have 'the' before them, e.g. the United States / the US(A), the United Kingdom / the UK, the Netherlands, the Philippines, the United Arab Emirates / the UAE, the European Union / the EU, the Commonwealth.

B Adjectives referring to people, countries and languages

With -ish: British Irish Flemish Polish Danish Turkish Spanish
With -(i)an: Canadian Brazilian Latvian Korean Russian Australian
With -ese: Japanese Chinese Vietnamese Portuguese Maltese Taiwanese
With -i: Israeli Iraqi Kuwaiti Pakistani Yemeni Bangladeshi
With -ic: Icelandic Arabic Slavonic
Some adjectives are worth learning separately, e.g. Swiss, Thai, Greek, Dutch, Cypriot.

C Nationalities

Some nationalities and cultural identities have nouns for referring to people, e.g. a Finn, a Swede, a Turk, a Spaniard, a Dane, a Briton, an Arab, a Pole. For most nationalities we can use the adjective as a noun, e.g. a German, an Italian, a Belgian, a Catalan, a Greek, an African, a European. Some need woman/man/person added to them (you can't say 'a Dutch'), so if in doubt, use them, e.g. a Dutch man, a French woman, an Irish person, an Icelandic man.

World regions

D

E Regional groups and ethnic groups

People belong to ethnic groups and regional groups such as African-Caribbean, Asian, Latin American, North African, Scandinavian, Southern African, European, Arabic. These can be used as countable nouns or as adjectives.

Europeans often find Asian cultures to be very different from their own. Arabic culture spreads across a vast region of North Africa and the Middle East.

People speak dialects as well as languages. Everyone has a native language or first language (sometimes called mother tongue); many have second and third languages. Some people are expert in more than one language and are bilingual or multilingual. People who only know one language are monolingual.

The weather

Cold weather

In Northern Europe, daytime¹ temperatures are often quite mild, even in late² autumn. The days are often misty³, foggy and damp⁴. Soon, winter arrives, with frost⁵, icy roads and severe⁶ weather, including heavy snow. As people expect the weather to be bad, they try and keep warm so they don't freeze! Freezing weather may continue in the far north until May or even June, when the ground starts to thaw $/\theta > 1/7$ and the ice melts⁸ again.

² towards the end of a period ¹ during the day

³ with clouds of small drops of water in the air, making it difficult to see things in the ⁴ slightly wet, and not pleasant or comfortable

⁵ thin, white layer of ice on surfaces when the weather is very cold 6 extremely bad ⁷ change from hard, frozen state to softer state 8 change from solid to liquid under heat

Warm/hot weather

В

In a tropical¹ climate, the weather is often stifling², muggy³ and humid⁴. In other hot climates, there may be boiling⁵ hot days, and heatwaves⁶ may be common.

¹ very hot, as in countries near the Equator ² hot, uncomfortable, you can hardly breathe ³ very warm and a little damp ⁴ hot and damp, makes you sweat a lot ⁵ extremely hot ⁶ very hot, dry period

Wet weather

This wet weather scale gets stronger from left to right. shower (noun) \rightarrow heavy rain \rightarrow pour down (verb) / downpour $(noun) \rightarrow torrential rain \rightarrow flood (noun and verb)$ This rain won't last long; it's only a shower. [short period of rain] There was quite heavy rain during the night. / It rained heavily during the night.

It was absolutely **pouring down** yesterday. / There was a real **downpour**.

In Malaysia there is usually torrential rain most days, and the roads sometimes get flooded. / There are sometimes floods on the roads.

The sky's a bit overcast; I think it's

There was a gentle breeze on the beach, just enough to cool us. There was a very **strong/high wind** and my umbrella blew away. There was a gale that day, so we didn't go sailing. [very high wind] People stayed indoors because there was a hurricane on the way. [extremely high, dangerous wind]

Common mistake

The noun weather is uncountable. We say: We had bad weather that day. (NOT We had a bad weather.)

6.3 Rewrite the words in bold using words from B opposite.

I think it would be interesting to live in a hot topical climate. However, I don't like
weather that is hot and damp and makes you sweat
that are slightly warm and damp which we get in the UK. Some people love
extremely hot days, and I don't mind very hot, dry periods
occasionally, but when it's hot and uncomfortable and you can hardly breathe
it's just impossible. Maybe I should stay at home and forget about moving to a hot climate!

6.4 What kinds of weather do you think caused the following to happen? Write a sentence which could go *before* each of these. Use words from the opposite page.

1	The weather was stilling. We had to use the air-conditioning every afternoon.

14 Education

A Stages in a person's education (UK system)

The youngest children start their education in a crèche /kreʃ/, where they mostly play but also do some early learning activities. After that, they may go to a nursery school. Between the ages of five and 11, children attend primary school, where they learn the basics of reading, writing, arithmetic, etc. For most children, secondary education begins when they enter a comprehensive school or a more traditional grammar school (to which they gain admission by sitting an exam). The famous UK public schools are in fact private, fee-paying schools. Between the ages of 11 and 18, young people take a wide range of subjects in arts, sciences and technical areas. From 16 to 18 they may study at a sixth form college, after which they can go on to further/higher education at a university or college (e.g. a teacher-training college) and study academic subjects, at the end of which they receive a degree or diploma.

B Exams and qualifications

You take/do/sit an exam or resit¹ an exam.

If you pass and do well, you get a high grade; if you fail, you don't get the minimum grade. If you skip² classes/lectures, you'll probably do badly in the exam. Some schools, colleges and universities have continuous assessment with marks (e.g. 65%) or grades (e.g. A, B+) for essays and projects³ during the term. If you pass the university exams, you graduate⁴ / become a graduate⁵. There is usually a graduation ceremony, which parents and friends can attend. You can then apply for a post-graduate course, such as a Master's degree or PhD, where you specialise in a particular field⁶ and write a dissertation/thesis.

23 Environmental problems

A The problems and their causes

A variety of environmental problems now affect our entire world. As **globalisation**¹ continues, local issues become international ones, so today there are few places in the world that do not suffer from environmental problems. Some of the major problems now affecting the world are acid rain², air pollution³, global warming⁴, hazardous⁵ waste, ozone depletion⁶, smog⁷, water pollution, overpopulation, and rainforest destruction⁸. People are also worried about the **greenhouse effect**, where an increase in the amount of carbon dioxide [CO₂] and other **gases**⁹ in the Earth's

Both human behaviour and climate change have led to many animal and plant **species**¹² becoming **endangered**¹³ or even **extinct**¹⁴.

The prefix *over*- means *too much. Overfishing* means that people have fished so much that it is having a serious effect on fish populations. *Overpopulated* means there are so many people living in an area that life is difficult there.

B Dealing with the problems

Worldwide efforts are being made to improve the situation. Green parties and green or ecological policies are mainly concerned with protecting the environment. Conservation organisations are developing nature reserves where plants and animals are protected. Farmers increasingly produce organic food, which avoids the use of harmful chemicals. More companies try to behave in a way that is environmentally friendly or ecologically sound. Societies attempt to dispose of waste in a more responsible way, by, for example, recycling as much as possible. People aim to reduce their carbon footprint by using cars less so that they cut down on their use of fossil fuels, for example.

30 Travel

A Here is some basic vocabulary for different kinds of travel

transport	kinds of vehicle	parts of vehicle	people working with it	associated words
road	car, bus, coach, tram, van, lorry	boot, steering wheel	driver, motorist, mechanic, chauffeur	petrol station, break down, breakdown service
rail	high-speed train, express	sleeping car, buffet, coach	ticket collector, conductor	platform, seat reservation

air	aircraft, jumbo jet, helicopter	cockpit, wings, aisle /aɪjəl/	ground staff, cabin crew, air traffic controller	duty-free shop, terminal, runway, security

B Journey, trip, travel, voyage

A trip is usually shorter than a journey. We had a long journey by coach from the north to the south of the country. We usually say business trip (NOT business journey). We took a trip / went on a trip to the beach last weekend. (Go on a trip suggests an organised short excursion, whereas take a trip or have a trip could be something you do yourselves in your own car.)

Travel is a general word. It is an uncountable noun and a verb. Travel broadens the mind. How did you travel round Australia? We hitch-hiked.

Voyage means a long journey usually by sea, though this use is quite formal. It is often used in other contexts with discovery. Learning English is a voyage of discovery!

The President is elected for a four-year term and can appoint² or nominate high officials in government, including cabinet members (who advise) and federal judges. The President leads a major party, usually, but not always, the majority party³ in Congress. Congress consists of two houses, the House of Representatives and the Senate.

United Kingdom Parliamentary government: The government consists of a legislature⁴ (Parliament) and a Cabinet of Ministers⁵ from the majority party/parties in Parliament. The Prime Minister is the head of the government and the leader of the majority party in the House of Commons. The Prime Minister selects high officials and heads⁶ the Cabinet. Parliament consists of two chambers, the House of Commons and the House of Lords. MPs are members of parliament elected from each constituency⁷ to the House of Commons.

Parliamentary elections

During a general election each constituency has to choose which politician it wants as its representative. Usually there are several candidates to choose from. These candidates are all standing (or running) for Parliament. They present the policies, i.e. their party's plans. On polling day every adult goes to the polling station and casts a vote by marking a cross on their ballot paper. The candidate who gets the majority of votes wins the seat. If the vote is very close, the constituency may be referred to as a marginal seat.

I've got a boyfriend called Tom. I must tell you about him. We've known each other for three years. I quite liked him when we first met, but I didn't really fancy him in any big way. I did like being with him – he fascinated me with his stories of his travels around the world and something mysterious about his past attracted me. What's more, we were both keen on sailing. Little by little I fell in love with him. His sense of humour appealed to me and I was captivated by his smiling eyes. Now, three years later, I can't see why I didn't fall for him the moment we met. He's a very caring person, fond of animals and small children. He's always affectionate and loving towards me and passionate both about me and about the things he believes in and the people he cares for. I hope we'll always be as devoted to each other as we are now. Do write again soon and tell me all about your life!

Love, Amy

Long for means to wish for something very much. Yearn for is a more poetic way of saying

long for.

After this long, cold winter, I'm longing for spring. He will never stop yearning for his

44 The six senses

A The five senses

The five senses are **sight**, **hearing**, **taste**, **touch** and **smell**. What is sometimes referred to as a 'sixth sense' (or extrasensory perception) is a power to be aware of things independently of the five physical senses – a kind of supernatural sense. The five verbs referring to the senses are modified by an adjective rather than an adverb.

He looks dreadful. The trip sounds marvellous. The cake tastes good. It felt strange. The soup smelt delicious.

B Sight

Yesterday I glanced out of the window and noticed a policeman observing a house opposite through binoculars. I thought I glimpsed a man inside the house. Then I saw that there was a man peering into the window of the same house. I gazed at them wondering what they were doing. Suddenly the policeman stopped staring through his binoculars. He went to arrest the other man as he started to climb into the house through a window. I realised that I had witnessed a crime.

C Hearing

Scale of loudness: noiseless → silent → noisy → loud → deafening

D Taste

sweet (honey) salty (crisps) bitter (strong coffee) sour (vinegar) spicy (Indian food) If you say something tastes hot it may mean spicy rather than not cold. If a curry, say, is not particularly hot, then it is mild. Food can be tasty, but tasteful refers to furnishings, architecture or a style of dressing or behaviour. The opposite of both is tasteless.

E Touch

She poked me in the ribs with her elbow to wake me up. He stroked the cat and patted the dog. She tapped him on the shoulder. He grasped my hand and we ran. She grabbed her MP3 player and ran to the bus stop. The thief snatched her handbag and disappeared into the crowd. Press the button. Please handle the goods with great care.

Smell

Here are some adjectives to describe smells:

Very unpleasant: stinking foul-smelling putrid musty [smelling unpleasantly old and slightly damp] pungent [smelling very strong, often unpleasantly so]

Pleasant: fragrant aromatic sweet-smelling perfumed/scented

G Sixth sense

Different phenomena which a person with a sixth sense may experience: telepathy [experiencing someone else's feelings even though you are apart] premonition [knowing something is going to happen before it occurs] intuition [instinctive understanding] déjà vu [an inexplicable feeling that you have already been somewhere or experienced something before]

48 Commenting on problematic situations

A Types of problems and difficulties

There are many words for different types of difficulties. Chaos is a state of total confusion, where there is no order at all. A disaster is an event which causes great harm or damage. If you are facing a dilemma or are in a dilemma you are in a situation where you have to make a difficult decision between two things.

The earthquake was a dreadful disaster for the country. The transport system was in chaos for some time afterwards. The government were faced with a dilemma: start reconstruction work at once or wait until the likelihood of aftershocks had passed.

to be in a fix = be in a difficult situation to be in a tight corner = be in a situation that is hard to get out of to be in a muddle = be confused / mixed up

The word **challenge** puts a positive slant on a problem situation in that it focuses on the fact that it needs great mental or physical effort in order to be done successfully and therefore tests a person's ability.

c Idioms about dealing with problems and difficulties

A Words connecting sentence parts

- 1 You can't come in **unless** you have a ticket. [... if you do not have a ticket]
- 2 You can borrow the bike on condition that you return it by five o'clock.
- 3 In case of fire, dial 112. [When there is ...; usually seen on notices; you can also say in the event of]

Language help

Don't confuse in case of with in case. Take your umbrella in case it rains means 'It isn't raining but it might rain.'

B Supposing ... and What if ...

Note the use of **supposing** and **what** if (both usually found in spoken language) for possible situations in the future. What if is more direct.

MICK: Paul's coming tomorrow. He'll help us.

ALICE: Supposing / What if he doesn't turn up - what shall we do then?

Conditions with *-ever*

The *-ever* suffix means 'it does not matter which ...'. The stress is normally on *ever*.

C

What's the best way to travel in your country?

However you decide to travel in this country, it'll cost you a lot of money. For example, you'll end up paying at least 70 euros, **whichever** means of transport you take from the airport to the city centre – train or bus. Public transport is expensive **wherever** you go here. **Whoever** wins the next election should try to lower fares.

These sentences can also be expressed using **no matter**. Note the stress.

No matter how you decide to travel in this country, it will cost you a lot of money.

No matter who wins the next election, they should try to lower fares.

Common mistake

With the condition phrases in A, B and C the present tense is used in the conditional clause. *Take a jacket in case it gets cold later on.* (NOT Take a jacket in case it will get cold later on.)

D Some nouns which express condition

Certain conditions must be met before the Peace Talks can begin. (rather formal)

61 Cause, reason, purpose and result

A Cause and reason

You probably know how to use words like because, since and as to refer to the cause of or reason for something. Here are some other ways to express cause and reason:

The collision was **due to** the icy conditions.

The collision was caused by ice on the road.

The cause of the collision was ice on the road.

The heavy rain caused the river to flood.

Owing to the icy conditions, the two cars collided.

Language help

If you use *owing to* with a clause, you must follow it with *the fact that*. In this example, the clause is underlined. *Owing to the fact that the conditions were icy, the two cars collided.* (NOT Owing to the conditions were icy, ...)

Here are some other 'cause' words and typical contexts. They are all rather formal, and more suitable for written use.

The rise in prices **sparked** (off) a lot of political protest. (often used for very strong, perhaps violent, reactions to events)

C Results

Most of these expressions are fairly formal, and more frequent in written English:

He did no work. As a result / As a consequence / Consequently, he failed his exams.

The result/consequence of all these changes is that no one is happy any more.

The examples with consequence/consequently sound more formal than result.

His remarks resulted in everyone getting angry. (verb + in)

The events had an **outcome** that no one could have predicted. [result of a process or events, or of meetings, discussions, etc.]

The upshot of all these problems was that we had to start again. (less formal than outcome)

It's all very well saying you love dogs, but who will take it for walks if we *do* get one?

These examples are more formal:

And with all those other things you will need that indefinable thing: talent.

64 Referring words

A Text-referring words

Text-referring words take their meaning from the surrounding text. For example, this sentence in isolation does not mean much:

We decided to look at the problem again and try to find a solution.

What problem? The words **problem** and **solution** help organise the argument of the text, but they do not tell us the topic of the text. They refer to something somewhere else.

Here are some examples. The word in bold refers to the underlined words.

<u>Pollution is increasing</u>. The **problem** is getting worse each day.

<u>Should taxes be raised or lowered?</u> This was the biggest **issue** in the election. [topic causing great argument and controversy]

Whether the war could have been avoided is a question that interests historians.

Let's discuss <u>crime</u>. That's always an interesting **topic**. [subject to argue about or discuss, e.g. in a debate or in an essay]

<u>Punishment</u> is only one **aspect** of crime. [part of the topic]

Problem-solution words

Text-referring words are often used with 'problem-solution' types of text, where a problem is presented and ways of solving it are discussed. In the following example, the words in bold concern a problem or a solution. Try to learn these words as a family.

The **situation** in our cities with regard to traffic is going from bad to worse. Congestion is a daily feature of urban life. The **problem** is now

beginning to **affect** our national economies. Unless a new **approach** is found to control traffic, we will never find a **solution** to the **dilemma**.

In the dialogue below, two politicians are arguing. Note how the words in bold refer to parts of the argument.

A: **Your claim** that we're doing nothing to invest in industry is false. We invested £10 billion last year. You've ignored **this fact**.

A: **That argument** is out-of-date in a modern technological society. **Our position** has always been that we should encourage technology.

B: But the investment has all gone to service industries. **The real point** is that we need to invest in our manufacturing industries.

B: But **that view** won't help to reduce unemployment.

The following problem-solution words are grouped in families associated with the underlined key words. The prepositions normally used with them are given in brackets.

<u>situation</u>: state of affairs, position (with regard to)

<u>problem</u>: difficulty (more formal), crisis, matter

<u>response</u> (to): reaction (to), attitude (to), approach (to) <u>solution</u>: answer (to), resolution (to), key (to), way out (of)

evaluation (of the solution): assessment, judgment

Economically, the government is in a critical **position**. This **state of affairs** is partly a result of the financial **difficulties** currently being experienced globally. Our government's initial **response** to the

situation was to impose higher taxes. This **approach** has not proved to be the **solution** to the problem. Economists' current **assessment** is that this may in fact be making **matters** worse.

65 Discourse markers in spoken English

A What are discourse markers?

Discourse markers are expressions which organise, comment on or in some way frame what we are saying. An example is well.

A: So you live in Boston? B: Well, near Boston.

Well here shows that the speaker is aware he/she is changing the direction of the conversation in some way (not giving the expected 'yes' answer). Another example is how teachers use words like Right and OK to organise what is happening in a classroom:

Right/OK, let's have a look at exercise 3.

B Organising a conversation

Here are some common expressions which organise the different stages of a conversation. Now, what shall we do next? So, would you like to come to the table now, please? Good, I'll ring you on Thursday, then. Well then, what was it you want to talk about? Now then, I want you to look at this picture. (said by someone in control of the conversation, e.g. a teacher)

Fine/Great, let's meet again next week, then, shall we? (often used to close conversations) So, where was I? I was telling you about my aunt ... (often used after an interruption or to come back to the main topic or story)

Modifying and commenting on what you say

In these mini-dialogues, the expressions in bold modify or comment on what is being said.

- A: It's cold, isn't it?
- B: Yeah.
- A: **Mind you**, it's November, so it's not surprising. (an afterthought, used like *however*)
- A: It's quite a problem ...
- B: **Listen/Look**, why don't you let me sort it out? (introducing a suggestion / an important point)
- A: Would you? Thanks a lot.

- A: What's her number?
- B: Let me see, I have it here somewhere ... (a hesitation gaining time)
- A: And he said he was go-
- B: Well, that's typical!
- A: Hang on / Hold on! Let me tell you what he said! (preventing an interruption)

Other useful discourse markers

I can't do that. You see, I'm not the boss here. (explaining)

He was, you know, sort of ... just standing there. (hesitation)

He was wearing this, kind of / like, cowboy hat. (not sure of the best way to say something) So that's what we have to do. Anyway, I'll ring you tomorrow. (the speaker thinks the topic can change or the conversation can now close)

It rained all day yesterday. Still / On the other hand, we can't complain, it was fine all last week. (contrasts two ideas or points)

We shouldn't be too hard on him. I mean, he's only a child. (making clear what you mean) In informal spoken language, people often use the letters of the alphabet (usually no more than a, b and c), to list points they want to make.

STELLA: Why aren't you going this evening?

ADAM: Well, a I haven't got any money, and b it's too far anyway.

It is often difficult to hear these expressions when they are used in rapid speech, but when you are in a position to listen in a relaxed way to someone speaking English (for example, if you are not the person being spoken to, or you are listening to informal speech on radio or TV or in a film), it is easier to concentrate on listening for discourse markers.

- 65.1 Underline all the discourse markers in this monologue.
 - 'Well, where shall I start? It was last summer and we were just sitting in the garden, sort of doing nothing much. Anyway, I looked up and ... you see, we have this, kind of, long wall at the end of the garden, and it's ... like ... a motorway for cats. That big fat black one you saw, well, that one considers it has a right of way over our vegetable patch, so ... where was I? I was looking at that wall, you know, daydreaming as usual, and all of a sudden there was this new cat I'd never seen before. It wasn't an ordinary cat at all ... - Here are some short dialogues where there are no discourse markers, which would be unusual in real informal conversation. Use markers from the list to fill the gaps. You can use the markers more than once, and more than one answer may be possible.

66 Linking words in writing

A Organising a formal text

First / Firstly / First of all, we must consider ...

Next, it is important to remember that ...

Secondly and thirdly are also used with first/firstly for lists.

Finally/Lastly, we should recall that ... (coming to the final point on a list)

Turning to the question of foreign policy, ... (changing to a new topic)

Leaving aside the question of pollution, there are also other reasons ... (the writer will not deal with that question here)

In parenthesis, let us not forget that ... (making a point that is a side issue, not part of the main argument)

In summary / To sum up, we may state that ... (listing / summing up the main points)

In sum, the economic issues are at the centre of this debate ... (listing / summing up the main points: much more formal)

In conclusion / To conclude, I should like to point out that ... (finishing the text)

Common mistake

Lastly is used when making a final point, e.g. *Lastly*, *let us consider what the future holds*. (NOT Atlast let us consider ...) At last means finally after a long time, e.g. At last l've finished my essay – what a relief!

B Linking words for explaining, exemplifying, rephrasing, etc.

To learn new words properly a lot of recycling is needed; in other words / that is to say, you have to study the same words over and over again. (that is to say is much more formal) Some English words are hard to pronounce, for example / for instance, 'eighth'.

It might be possible, say, to include the parents in the discussion. (similar to for example; note the commas before and after; say is also common in spoken English)

The Parliament has different committees. Briefly, these consist of two main types. [the explanation will be short and not comprehensive]

She is, so to speak / as it were, living in a world of her own. (makes what you are saying sound less definite/precise; as it were is more formal)

C Referring backwards and forwards in the text

The following points will be covered in this essay: ... (used to introduce a list)

It was stated above/earlier that the history of the USA is ... [earlier in the text]

Many writers have claimed this (see below). [examples will be given later in the text]

69 Suffixes

A Common noun suffixes

-er /ə/ is used for the *person* who does an activity, e.g. writer, painter, worker, shopper, teacher. You can use -er with a wide range of verbs to make them into nouns.

Sometimes the -er suffix is written as -or (it is still pronounced /ə/). It is worth making a special list of these words as you meet them, e.g. actor, donor [person who donates something], operator, sailor, supervisor [person whose job is to make sure that other people do their jobs correctly, safely, etc.].

-er/-or are also used for *things* which do a particular job, e.g. pencil sharpener, bottle opener, grater, projector, stapler, coat hanger.

-er and -ee (pronounced /iː/) can contrast with each other meaning 'person who does something' (-er) and 'person who receives or experiences the action' (-ee), e.g. employer/employee /emploji'iː/, sender, addressee, payee (e.g. of a sum of money).

-tion/-sion/-ion are used to form nouns from verbs, e.g. complication, pollution, reduction, alteration, donation, promotion, admission, action.

-ist [a person] and -ism [an activity or ideology] are used for people's politics, beliefs and ideologies, and sometimes their profession (compare with -er/-or professions above), e.g. Marxist, typist, physicist, terrorist, Buddhism, journalism.

-ist is also often used for people who play musical instruments, e.g. pianist, violinist, cellist. -ness is used to make nouns from adjectives, e.g. goodness, readiness, forgetfulness, happiness, sadness, weakness. Note what happens to adjectives that end in -y.

B Adjective suffixes

-able/-ible /əbl/ with verbs means 'can be done', e.g. drinkable washable readable forgivable edible [can be eaten] flexible [can be bent]

C Verbs

D

-ise (or -ize, which is more common in American English) forms verbs from adjectives, e.g. modernise [make modern], commercialise, industrialise, computerise.

Other suffixes that can help you recognise the word class

- -ment: (nouns) excitement, enjoyment, replacement [the act of putting sb or sth in the place of sb or sth else]
- -ity: (nouns) flexibility [ability to change easily according to the situation], productivity, scarcity
- -hood: (abstract nouns especially family terms) childhood, motherhood, brotherhood
- -ship: (abstract nouns especially status) friendship, partnership, membership
- -ive: (adjectives) active, passive (in language, the passive is when the receiver of an action becomes the subject, e.g. *The bank was robbed*), productive [producing a positive large amount of something]
- -al: (adjectives) brutal, legal [related to or which follows the law], (nouns) refusal, arrival
- -ous: (adjectives) delicious, outrageous [shocking and morally unacceptable], furious [very angry]
- -ful: (adjectives) hopeful, useful, forgetful
- -less: (adjectives) useless, harmless [which cannot hurt or damage anyone or anything], homeless
- -ify: (verbs) beautify, purify, terrify [cause someone to be extremely afraid]

The informal suffix -ish can be added to most common adjectives, ages and times to make them less precise, e.g. She's thirtyish. He has reddish hair. Come about eightish.

Language help

Adding a suffix can sometimes change the stress in a word. Be sure to check in a dictionary. Examples: $\underline{\mathbf{flex}}$ ible \rightarrow flexi $\underline{\mathbf{bil}}$ ity $\mathrm{pro}\underline{\mathbf{duct}}$ ive \rightarrow produc $\underline{\mathbf{tiv}}$ ity $\mathrm{pi}\underline{\mathbf{ano}} \rightarrow \underline{\mathbf{pi}}$ anist

70 Prefixes

A Negative prefixes on adjectives

Prefixes are often used to give adjectives a negative or an opposite meaning. For example, fair/unfair, experienced/inexperienced and similar/dissimilar are opposites. Other examples are 'unnatural', 'inedible', 'disorganised'. Unfortunately, there is no easy way of knowing which prefix any adjective will use to form its opposite.

in- becomes im- before a root beginning with 'm' or 'p', e.g. immature, impatient, immoral, impossible, improbable. Similarly in- becomes ir- before a word beginning with 'r', e.g. irregular, irresponsible, irreplaceable, and il- before a word beginning with 'l', e.g. illegal, illegible, illiterate.

Language help

The prefix in- (and its variations) does not always have a negative meaning – often it gives the idea of inside or into, e.g. internal, import, insert, income.

B Negative prefixes on verbs

The prefixes un- and dis- can also form the opposites of verbs, e.g. tie/untie, appear/ disappear. These prefixes are used to reverse the action of the verb. Here are some more examples: disagree, disapprove, disbelieve, disconnect, discourage, dislike, disprove, disqualify, unbend, undo, undress, unfold, unload, unlock, unveil, unwrap, unzip.

C Other common prefixes

Some words with prefixes use a hyphen. Check in a dictionary if you're not sure.

72 Abstract nouns

A What are abstract nouns?

An abstract noun represents an idea, experience or quality rather than an object that you can touch. For example, advice, happiness, intention and (in)justice are abstract nouns but pen, bed and trousers are not.

B Suffixes in abstract nouns

Certain suffixes (see Unit 69) are used frequently in abstract nouns. The most common are -ment, -ion, -ness and -ity. The suffix -ion sometimes becomes -tion, -sion, -ation or -ition. -ment, and -ion are usually used to make verbs into abstract nouns. The suffixes -ness and -ity are added to adjectives.

Here are some examples of abstract nouns using those suffixes.

1-:	- ((+:	1	4::4
achievement	affection	carelessness	activity
adjustment	collection	consciousness	authority
amazement	combination	eagerness	creativity
disagreement	expectation	friendliness	curiosity
improvement	frustration	kindness	generosity
investment	limitation	laziness	hostility
replacement	recession	politeness	popularity
retirement	reduction	weakness	sensitivity

C Less common suffixes forming abstract nouns

-ship, -dom, -th and -hood

The suffixes -ship and -hood are usually added to other nouns to form abstract nouns. The suffix -th is added to an adjective to form an abstract noun and -dom can combine with either a noun or an adjective.

Here are some examples of abstract nouns using those suffixes.

boredom	breadth	adulthood
freedom	depth	brotherhood
kingdom	length	childhood
martyrdom	strength	motherhood

73 Compound adjectives

A Form and meaning

A compound adjective has two parts. It is usually written with a hyphen, e.g. well-dressed, never-ending, sky-blue. Its meaning is usually clear from the combined words. The second part of the adjective is often a present participle (ending in -ing) or past participle (ending in -ed, except for irregular verbs).

Language help

Some compound adjectives use a hyphen before a noun but not after a verb (e.g. a well-dressed man but He is always well dressed).

Personal appearance

В

A number of compound adjectives describe personal appearance. Here is a rather far-fetched description of a person starting from the head down. [hard to believe]

Tom was a **curly-haired**, **suntanned**, **blue-eyed**, **rosy-cheeked**, **thin-lipped**, **broad-shouldered**, **left-handed**, **long-legged** young man, wearing an **open-necked** shirt, **brand-new**, **tight-fitting** jeans and **open-toed** sandals.

Personality and character

Other compound adjectives describe a person's character.

Melissa was absent-minded [forgetful], easy-going [relaxed], good-tempered [cheerful], warm-hearted [kind] and quick-witted [quick-thinking/sharp], if perhaps a little big-headed [proud of herself], two-faced [not sincere], self-centred [always thinking about herself instead of others] and stuck-up [thinks she's better than other people (colloquial)] at times.

D Prepositions and particles

Another special group of compound adjectives has a preposition or particle in its second part. The workers' declaration of an **all-out** strike forced management to improve conditions. [total] Once there were fields here but now it's a totally **built-up** area.

That student's parents are very well-off but they don't give him much money and he is always complaining of being hard-up. [rich] [poor]

I love these shoes and, although they're worn-out, I can't throw them away.

This area was once prosperous but it now looks very run-down. [in a very bad condition]

Collocations

Here are some other compound adjectives with typical noun collocations.

business-class ticket air-conditioned rooms bullet-proof windows on the President's car **cut-price** goods in the sales duty-free items handmade furniture interest-free credit last-minute revision for an exam long-distance lorry driver **long-standing** relationship off-peak train travel [at a time which is less busy] part-time job so-called expert sugar-free time-consuming writing of reports **top-secret** information world-famous film star diet

Changing compound adjectives

You can vary the compound adjectives listed by changing one part of the adjective. For example, curly-haired, long-haired, red-haired and wavy-haired; first-hand (knowledge), first-class (ticket) and first-born (child).

74 Compound nouns 1: noun + noun

A What are compound nouns?

A compound noun is a fixed expression which is made up of more than one word and functions as a noun. Such expressions are frequently combinations of two nouns, e.g. car park, human being [person], science fiction [fiction based on some kind of scientific fantasy]. A number of compound nouns are related to phrasal verbs and these are dealt with in Unit 75.

B How are compound nouns written?

If you understand both parts of the compound noun, the meaning will usually be clear. Compound nouns are usually written as two words, e.g. tin opener [an opener for tins], bank account [an account in a bank], pedestrian crossing [a place for people to cross a road], but sometimes they are written with a hyphen instead of a space between the words, e.g. self-control [control over your own emotions and reactions]. Sometimes they may be written as one word, e.g. earring, trademark [the symbol of a product], babysitter [someone who stays with a baby/child while parents are out].

Note that there are no strict rules about which compound words should be written in which way. There is a lot of variation even between dictionaries.

C Stress in compound nouns

Usually the main stress is on the first part of the compound but sometimes it is on the second part. In the common compound nouns below, the word which contains the main stress is underlined.

alarm clock	contact lens	mineral water	voice mail
<u>blood</u> donor	<u>credit</u> card	package holiday	windscreen
burglar alarm	<u>heart</u> attack	steering wheel	windscreen wiper
<u>bus</u> stop	<u>light</u> bulb	<u>tea</u> bag	youth hostel

Grammar of compound nouns

Compound nouns may be countable, uncountable or only used in either the singular or the plural. The examples given in C are all countable compound nouns. Here are some examples of common uncountable compound nouns.

air traffic control	computer technology	<u>food</u> poisoning	<u>junk</u> food
birth control	cotton wool	hay fever [allergy to pollen]	<u>mail</u> order
<u>blood</u> pressure	data processing	income tax	<u>pocket</u> money

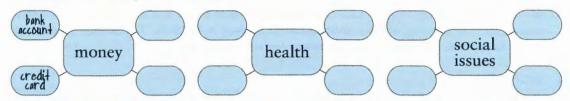

Here are some examples of common compound nouns used only in the singular.

arms race [two or more countries competing to have the most powerful military]	<u>generation</u> gap labour force
<u>climate</u> change	sound barrier
death penalty	welfare state

Here are some examples of common compound nouns used only in the plural.

grass <u>roots</u>	kitchen scissors	race relations	<u>sun</u> glasses
<u>head</u> phones	luxury goods	<u>road</u> works	traffic <u>lights</u>

76 Binomials

A What are binomials?

Binomials are expressions (often idiomatic) where two words are joined by a conjunction (usually 'and'). The order of the words is normally fixed. For example:

odds and ends: small, unimportant things, e.g. Let's get the main things packed – we can do the odds and ends later. (NOT ends and odds)

give and take: a spirit of compromise, e.g. Every relationship needs a bit of give and take to be successful.

You can often tell something is a binomial because of the sound pattern, which may be a repetition of the same first sound or a rhyme.

Tears are part and parcel of growing up. [an important part of / belong to]

The boss was ranting and raving /'reɪvɪŋ/ at us. [shouting / very angry]

The old cottage has gone to rack and ruin. [is ruined / has decayed]

He's so prim and proper at work. [rather formal and fussy]

The hotel was a bit rough and ready. [poor standard or quality]

She has to wine and dine important clients. [entertain / take out to restaurants]

They stole my wallet. I was left high and dry, with no money. [in a very difficult situation]

Pairs of near synonyms

At other times, the clue is that the words are near synonyms.

You can pick and choose – it's up to you. [have a wide choice]

My English is progressing in/by leaps and bounds. [big jumps]

It's nice to have some peace and quiet now that the children have left.

[a peaceful/calm situation]

The doctor recommended some rest and recreation / R and R. [relaxation]

First and foremost, you must work hard. [first and most importantly]

Binomials composed of grammar words

Many grammar words combine to form binomials.

There are cafés here and there along the sea front. [scattered round / in different places]

We've had meetings on and off / off and on. [occasionally]

I've been running back and forth / to and fro all day. [to and from somewhere]

She's better now, and out and about again. [going out]

She ran **up** and **down** the street. [in both directions]

Language help

Your language probably has many binomials. Check that the ones which look similar in English have the same word order as your language. These three are very neutral binomials and can be used in formal or informal situations. Try translating them.

I have an old **black and white** photograph of my grandparents. **Ladies and gentlemen**, your attention, please! She ran **back and forth.**

D Binomials linked by words other than and

You've got your sweater on back to front. [the wrong way]

He won't help her – she'll have to sink or swim. [survive or fail]

Slowly but surely, I realised the boat was sinking. [gradually]

Sooner or later, you'll learn your lesson. [sometime in the future]

She didn't want to be just friends – it had to be all or nothing.

Well, I'm sorry, that's all I can offer you – take it or leave it.

It's about the same distance as from here to Dublin, give or take a few miles. [perhaps a mile or two more, or a mile or two less]

Multi-word expressions

Learning and remembering multi-word expressions

Fixed expressions, also known as idioms, often have meanings that are not clear or obvious. For example, the expression to feel under the weather, which means 'to feel unwell', is typical. The words do not tell us what it means, but the context usually helps.

Think of multi-word expressions as units, just like single words; always record the whole expression in your notebook, along with information on grammar and collocation, e.g. This tin opener has seen better days. [it is rather old and broken down; usually of things, always perfect tense form]

Multi-word expressions of this type are often rather informal and include a personal comment on the situation. They are sometimes humorous or ironic. As with any informal words, be careful how you use them. Never use them just to sound 'fluent' or 'good at English'. In a formal situation with a person you do not know, don't say:

'How do you do, Mrs Watson? Do take the weight off your feet.' [sit down] Instead say: 'Do sit down' or 'Have a seat.'

Organising multi-word expressions

Multi-word expressions can be grouped in a variety of ways. It is probably best to use whichever way you find most useful to help you remember them.

Grouping by grammar

В

get (hold of) the wrong end of the stick [misunderstand] verb + object pull a fast one [trick/deceive somebody] poke your nose in(to) [interfere] be over the moon [extremely happy/elated] verb + prepositional phrase feel down in the dumps [depressed/low] be in the red [have a negative bank balance]

Grouping by meaning, e.g. expressions describing people's character/intellect He's as daft as a brush. [very stupid/silly]

She takes the biscuit. /'bɪskɪt/ [is the extreme / the worst of all]

They're a pain in the neck. [a nuisance / a difficult person]

Little Sam's as good as gold. [behaves very well – usually used about children]

Grouping by a verb or other key word, e.g. expressions with make

Why do you have to make a meal out of everything? [exaggerate the importance of everything] I think we should make a move. It's gone ten o'clock. [go/leave]

Most politicians are on the make. I don't trust any of them.

[wanting money/power for oneself]

I'm afraid I'm making heavy weather of my essay. [making slow and difficult progress]

C Grammar of multi-word expressions

It is important when using these expressions to know just how flexible their grammar is. Some are more fixed than others. For instance, barking up the wrong tree [be mistaken] is always used in continuous, not simple form, e.g. I think you're barking up the wrong tree. (NOT I think you bark up the wrong tree.)

A good dictionary may help, but it is best to observe the grammar in real examples. Note how Units 88–93 group expressions in different ways.

For more information on multi-word expressions, see English Idioms in Use by Michael McCarthy and Felicity O'Dell.

79 Words commonly mispronounced

A Vowels

You can hear how all the words in this unit are pronounced on the CD-ROM. The phonetic transcription is provided for some of the words below. Check you understand the symbols, which are used by most good dictionaries (see page 258).

To master English pronunciation it is helpful to learn the 22 phonetic symbols for English vowel sounds. These are important because the vowel letters can be pronounced in many different ways:

```
a cat/cæt/ about /ə/ wander /b/ last /aː/ late /eɪ/ e met /e/ meter /iː /ə/
i alive /aɪ/ give /ɪ/ o sorry /b/ go /əʊ/ love /ʌ/ to /uː/

ei rein /eɪ/ receive /iː/ reinforce /iːɪ/ oo cool /uː/ cook /ʊ/ coopt /əʊɒ/

Language help

The letter 'r' is not silent in some varieties of English, for example American, Irish, Scottish.

C Changing stress

teacher

water

Some two-syllable words in English have the same form for the noun and the verb. The stress is on the first syllable of the word when it is a noun and the second syllable when it is a verb, e.g. Wool is a major Scottish export. Scotland exports a lot of wool. Here are some other words like this.

conduct	conflict	contest	decrease	suspect	record
desert	import	increase	insult	transfer	reject
permit	present	progress	protest	transport	upset

Multi-syllable words in English tend to put their main stress on the third syllable from the end, e.g. <u>pho</u>tograph, <u>te</u>lephone, <u>arithmetic</u>. As a result, as a long word adds suffixes its word stress does not stay on the same syllable, e.g. <u>photographer</u>, <u>telephony</u>, <u>arithmetical</u>. Note that, although this rule is useful, it does have plenty of exceptions.

85 Making uncountable nouns countable

A Bit and piece

You can make many uncountable nouns singular and countable by adding a piece of or a (little) bit of. Similarly, you can make such nouns plural with pieces of or bits of. Bit is less formal than piece and they are not always interchangeable. Bit can be used with all types of nouns. Piece tends to be used more with uncountable nouns. Bit suggests a smaller amount than piece. How many pieces of luggage have you got with you?

The many pieces of fuggage have you got with you?

The police collected bits of information from different sources.

Chopin wrote some wonderful pieces of music.

94 Formal and informal words 1

A What is formality?

Formality is all about your relationship with the person you're speaking or writing to. If you use formal language, it may be because you wish to show respect, politeness, or to put yourself at a distance (for example, 'official' language, or academic language). Informal language can show friendliness, equality or a feeling of closeness and solidarity with someone. You should *never* use informal language just to sound fluent or clever.

B Scales of formality

Some groups of words can be put on a scale from formal to neutral to informal.

formal —	\rightarrow	neutral	informal
offspring		children	kids
abode / residence		house / flat / home	place
goodbye		bye-bye	bye / cheerio
go amiss		go wrong	go pear-shaped

D Formal phrases

Many phrases are typical of formal contexts such as academic or official language. What should the government do in terms of helping young people? Students, in particular, need support to complete their studies, on account of the high fees and living costs they have to meet. Should students be given financial support on the basis of their family circumstances? And how should the government act in relation to youth unemployment? The definitions give less formal or neutral equivalents.

C Slang

Slang is extremely colloquial language. Slang helps to make speech vivid, colourful and interesting but it can easily be used inappropriately. Slang is mainly used in speech but it is also often found in the popular press and in literature. Slang changes very quickly, so some words go out of fashion, but you may meet them in novels and films. Some slang expressions may cause offence to some people. Here are some examples you may hear or read.

Expressions for money: bread dosh readies

Expressions for food and drinks: nosh grub cuppa [cup of tea]

People obsessed with computers or other equipment: nerd anorak

Jobs: quack (doctor) the old bill / the bill (the police) squaddie (soldier of a low rank)

Language help

If you are interested in slang, you can find more examples in films or in the tabloid press but it is probably safest to keep it in your passive rather than your active vocabulary.

96 Similes

Α

As ... as

As ... as similes are easy to understand. If you see the phrase as dead as a doornail, you don't need to know what a doornail is, simply that the whole phrase means 'totally dead'. But remember fixed similes are usually informal/colloquial and often humorous. Those marked * are negative and could offend. Use all these expressions with care and keep them generally as part of your receptive vocabulary.

Creating a picture in your mind can often help you remember the simile:

as blind as a bat*

as thin as a rake*

as strong as an ox

as quiet as a mouse

Some can be remembered as pairs of opposites.

as heavy as lead /led/ \neq as light as a feather as drunk as a lord* \neq as sober as a judge as black as night \neq as white as snow (particularly used in fairy tales)

Some can be remembered by sound patterns.

as good as gold (this is used about children's behaviour)

97 Proverbs

A Advice and warnings

proverb	paraphrase
Don't count your chickens before they hatch.	Don't anticipate the future too much.
Don't put all your eggs in one basket.	Don't invest all your efforts or attention in just one thing.
Never judge a book by its cover.	Don't judge people/things by their outward appearance.
Never look a gift-horse in the mouth.	Never refuse good fortune when it is there in front of you.
Take care of the pennies and the pounds will take care of themselves.	Take care of small sums of money and they will become large sums.
We'll cross that bridge when we come to it.	We'll deal with that problem when it actually happens.

B Key elements

Proverbs can be grouped by key elements, for example, animals and birds.

You can lead a **horse** to water but you can't make it drink. [you can try to persuade someone, but you can't force them]

One **swallow** doesn't make a summer. [one positive sign does not mean that all will be well; a swallow is a bird that returns to Britain in late spring]

C Visualising

As with learning all vocabulary, visualising an element of it often helps.

There's no smoke without fire. / Where there's smoke, there's fire. [rumours are usually based on some degree of truth]

Too many cooks spoil the broth /brpθ/. [too many people interfering is a bad way of doing things; broth = a kind of soup]

Many hands make light work. [a lot of people helping makes a job easier]

99 Headline English

A The grammar of headlines

Newspaper headlines try to catch the reader's eye by using as few words as possible.

- Grammar words like articles or auxiliary verbs are often left out, e.g. EARLY CUT FORECAST IN INTEREST RATES.
- A present simple form of the verb is used, e.g. MAYOR OPENS HOSPITAL.
- The infinitive is used to express the fact that something is going to happen in the future, e.g. PRESIDENT TO VISIT FLOOD AREAS.

Short dramatic words

Newspapers usually prefer words that are shorter and sound more dramatic than ordinary English words. The words marked * can be used either as nouns or verbs.

newspaper word	meaning	newspaper word	meaning
aid*	help	key (adj)	essential, vital
axe*	cut, remove	link*	connection

drive*	campaign, effort	talks (noun)	discussions
gems (noun)	jewels	threat	danger
go-ahead	approval	vow*	promise
hit (verb)	affect badly	wed (verb)	marry

Newspaper headlines often use abbreviations, e.g. PM for Prime Minister, MP for Member of Parliament. (See Unit 77 for more abbreviations.)

Jokes in headlines

Some newspapers also enjoy making jokes in their headlines. They do this by playing with words or punning, e.g. a wet open-air operatic concert was described as:

TORRENTIAL RAIN IN MOST ARIAS

An announcement that a woman working at the Mars chocolate company had got an interesting new job was:

WOMAN FROM MARS TO BE FIRST BRITON IN SPACE

Note: the word 'Briton' is almost exclusively found in newspapers.

100 US English

C

A English in the USA

English in the USA differs from British English. Pronunciation is the most striking difference but there are also differences in vocabulary and spelling as well as some differences in grammar. Americans say *the fall*, while British English speakers say *autumn*; American speakers say *on the weekend*; British English prefers *at the weekend*. Yet, generally, British and American speakers have little difficulty in understanding each other.

B American English spelling

American English spelling is usually simpler. For example, British English words ending in -our and -re end in -or and -er in American English, e.g. colour/color, centre/center. Words ending in -ise in British English end in -ize in US English (realise/realize). There are differences in individual words too, e.g. British jewellery is jewelry in American English.

24.7 Possible answers (for Cambridge):

The most picturesque parts of Cambridge are beside the river.

Cambridge is one of England's most historic towns.

The town could hardly be called spacious as most of its streets are very narrow.

Some of the eighteenth-century buildings are particularly elegant.

The most magnificent building in the town, in my opinion, is the Pepys Library.

Cambridge is very lively at night because so many young people live there.

When the university is on vacation the town can suddenly seem quite deserted.

The market is particularly bustling on Saturdays.

The shopping centre always seems to be packed with people.

We are lucky in that nowhere in the town is filthy; everywhere is quite clean.

Some of the suburbs have become quite run-down in recent years.

30.4 The flight from Huascal to Amlugo was severely delayed (six hours!). I was worried I'd get stuck at the airport (and hoped that the airline would put me up in a nice hotel ((a)) but anyway the flight wasn't cancelled and we finally took off. The weather was awful, so the flight was bumpy and I got airsick (very unpleasant!). But the cabin crew were very friendly and helpful, which made me feel better. The landing was not so bad and soon we were at the terminal collecting our baggage. I slept well last night – I think I've got over the jetlag I had after my 12-hour flight from Europe.

I didn't have a reservation for the Eurostar train from Paris to London, but they put me on standby and I got a seat on a later train. It was a good journey, everything ran smoothly and it arrived on time. In London, I enquired if there was a sleeping car on the train to Scotland so I could travel overnight. The alternative was a hotel and the early morning train at 6.30 am (too early for me!). When I get to Scotland I want to go to some of the islands. I hope the sea is calm. I hate rough seas – I always get seasick!

Unit 62

62.1 Possible answers and comments:

- 1 I accept (or more formal: I acknowledge) that you weren't solely to blame, but you must take *some* responsibility. (Accept and acknowledge are most suitable here since the speaker is prepared to agree with one aspect but wants to go on to make another point to support his/her case.)
- 2 OK, I admit I was wrong, you were right; he *is* a nice guy. (This seems to be a situation where somebody is accusing someone of trying to get them to say they were wrong. Admit is ideal in this case.)
- 3 The company acknowledges that you have suffered some delay, but we do not accept liability. (Acknowledge is perhaps best here; it is often used in formal, legalistic situations like this because it simply says 'We understand your message, but we do *not* necessarily accept any liability/blame/responsibility'; admit might suggest the company *does* accept legal responsibility; accept is also possible though less formal.)
- 4 She accepted/conceded that we had done all we could, but she was still not content. (Concede usually suggests an argument or debate where people might 'give' small points to one another while still holding on to their basic position, and would seem to be a likely choice here; concede here suggests she did not really want to say it.)

- 63.1 Suggested answers and comments:
 - 2 In addition to / As well as / Apart from / Besides (The choice is quite wide, but, depending on which one she chooses for 2, the writer would probably then choose a different one for 4, to avoid repeating herself.)
 - 3 etc. / and so on (etc. is slightly more formal than and so on, and the writer may want to avoid sounding too informal.)
 - 4 in addition to / as well as / apart from / besides
 - 5 Furthermore / Moreover / Likewise

(furthermore/moreover add her previous experience on to the rest; likewise not only adds the information but suggests it is of equal value to the other experience she has mentioned.) If she wanted to use what's more, the writer would probably write it in full as what is more, so as not to sound too informal. However, what's more / what is more can often sound a little abrupt and argumentative (as if you're trying very hard to convince the reader) and might sound just a bit too strong here.

Equally would not be suitable here, as it is best used when arguing points and presenting opinions (trying to convince someone of the equal value of a point added on to other points).

66.4 Sample letter:

Dear Editor,

With reference to the article in your newspaper about the closure of Newton Hospital, I would like to express my strong opposition to the proposal, for the following reasons. Firstly, the nearest other hospital is 50 kilometres away. Secondly, 200 people work at the hospital and they will lose their jobs and the whole region will suffer, that is to say the hospital makes an important contribution to the local economy. Finally, it is the only hospital in the region with a special cancer unit. But leaving aside the economic and medical questions, the hospital is obviously being closed for political reasons, and this is quite wrong.

To sum up, the closure of our hospital would be a disaster both for the people and for the economy of this region.

Yours sincerely,

Anna Green (Ms)
